At this age, many toddlers are not cooperative when asked to do things. You may need to try the following activities with your child more than one time. If possible, try the activities when your child is cooperative. If your child can do the activity but refuses, score "yes" for the question.

YES      SOMETIMES      NOT YET

**COMMUNICATION**      *Be sure to try each activity with your child.*

## SCORING THE QUESTIONNAIRE

- Be sure each question has been answered. If a question cannot be answered, refer to the ratio scoring procedure in *The ASQ User's Guide*.
- Score each item on the questionnaire by writing the appropriate number on the line by each item answer.  
 YES = 10      SOMETIMES = 5      NOT YET = 0
- Add up the item scores for each area and record these totals in the space provided for area totals.
- Indicate the child's total score for each area by filling in the appropriate circle on the chart below. For example, if the total score for the Communication area was 50, fill in the circle below 50 in the first row.

Examine the blackened circles for each area in the chart above.

- If the child's total score falls within the  area, the child appears to be doing well in this area at this time.
- If the child's total score falls within the  area, talk with a professional. The child may need further evaluation.

**OPTIONAL:** The specific answers to each item on the questionnaire can be recorded below on the summary chart.
